

STARS FOR STARTERS

AB PIP STEM FUNDRAISER

Stars for Starters, A Night Sky Poetry Guide by Mildred J. Nash

Looking for the perfect book for star watchers of all ages? *Stars for Starters* is a terrific introduction to the constellations. This primer begins with celestial navigation, proceeds to year-round constellations, discusses the seasonal skies, and concludes with the zodiac and planets. The book uses poetry to symbolize the magic of the night skies and is an easy way to recall star facts.

Based on fundraiser sales, the author will donate her books to Acton-Boxborough Schools, Libraries and Community Venues.

AB PIP STEM sponsors K-12 Science, Technology, Engineering & Math events.
